**Certificates of Veterinary Inspection (CVI)**

- Cattle, sheep, goats, swine, llamas, alpacas, deer, and mic. Ruminants require a valid CVI to enter the fairgrounds.
- The CVI must be issued by a Category 2 accredited veterinarian.
- All animals must be officially identified. All manmade ID must be recorded. Refer to Animal Identification section below for more information.
- Only one species is allowed per certificate.
- The type and duration of certificate required depends on the origin of the livestock.

### **New York Origin Livestock:**

- A valid intrastate CVI (AI-61) is required
- Each Animal must be individually identified on the CVI(see below)
- The CVI must be issued on or after May 1<sup>st</sup> of the current year.

### **Out of State Origin Livestock**

The initial entrance into a fair must be within 30 days of the date of CVI inspection. In order for the CVI to be used for a later fair, it must be dated and initialed by a state official noting the location of the initial fair. A change in health status or eligibility of an animal necessitates the generation of a new CVI.

Questions regarding import requirements should be directed to the Divisions of Animal Industry at 518-457-3971, or at the division import/export homepage:

### **Animal Identification**

- Cattle, Sheep, goats, swine, and deer/elk must be identified by USDA approved official identification. Cattle, swine, and deer/elk must be identified by official ear tag.

### **Rabies Vaccination**

- Vaccine must have been administered within the past 12 months. The exception is Imrab LA vaccine used in sheep which protects for 3 years after the second annual vaccination (consult your veterinarian).
- The rabies vaccination requirement must be met on the day of admission even if the animal was previously admitted to a fair when too young to vaccinate.

**NOTE:** Individual fairs can require animals for which there is no approved rabies vaccine to be vaccinated for rabies. The requirements outlined above would apply. The fair is responsible for notifying exhibitors. The New York State Fair requires rabies vaccination for all livestock species entering the grounds.

### **Acceptable Proof of Rabies Vaccination:**

- Acceptable proof of rabies vaccination must include a signed written statement from the attending veterinarian or a valid certificate of veterinary inspection that has the vaccination listed and is signed by the attending veterinarian.

- All cattle and new world camelids (llamas, alpacas, guanacos and vicunas) exhibited at NY County Fairs or the State Fair must be negative to an approved test appropriate to detect Bovine Viral Diarrhea persistent infection (BVD-PI). This is a once in a lifetime test that must be reported on the required certificate of veterinary inspection. The issuing veterinarian is responsible for verifying the validity of the test, the identification of the animal and recording the test date on the CVI. If a previous test is not verifiable the test must be repeated.

### **Cattle Testing:**

- Currently acceptable BVD tests for cattle less than 61 days old:
